Experience

April 18, 2016–Present

Web Design | Web Programmer | Santa Rosa, CA

Web Programmer for OntheMarkDigital. I build site maps, wireframes and mockups for websites. Create custom made websites for companies nation wide using Word Press, Visual Composer, HTML, CSS, PHP & Bootstrap. I also update & maintain websites for clients on a daily basis. OntheMarkDigital.com

Dec 12, 2015–Jan 4, 2016

Graphic Design | FREELANCE | Sebastopol, CA

Collaborated with Stellar Imports Ltd. to design and produce high quality, imaginative, branded merchandise for the promotional products industry. Worked with clients such as Hard Rock Cafe, The Ellen Degeneres show, GMC Buick and McDonald's, for promotional package design & labeling. Used AdobeCC to create promotional merchandise for up in coming events.

Sep 10,–Dec 23, 2015

New Media Design | FREELANCE | San Francisco, CA

Collaborated with Method 360 to design and produce company letterhead, a template for news letter, display booth for a trade show and video editing for webinars. I used Adobe Illustrator, InDesign,Photoshop, Premiere Pro for wire frames, mockups and the final projects.

May 11, 2015–Present

Graphic & Web Design | FREELANCE | San Francisco, CA

Collaborated with an online radio station to design and develop a corporate logo using Adobe CC and BBedit. Built a site map, wire frames and mockups for website. Created a responsive web site using HTML5/CSS, JQuery, Bootstrap and Google fonts. Inserted an ad by Google tag in the footer. Created a marketing campaign and Web master. Sfsoul.me
